PROJECTS

Abroad Service

Abroad service project is designed to make living and settling in a foreign country seamless and stress-free. This innovative platform offers a one-stop solution for essential services, including House Rentals, Car Rentals, Worker Services. It uses React as front end and NodeJS as backend MySQL as database.

Python-Django, HTML, CSS, JavaScript

Nike online shopping website

Developed an online shoe store focused on Nike-branded footwear using Flask for the backend. The frontend was designed with HTML, CSS, and JavaScript to create a responsive, user-friendly interface. The store supports features like product browsing, user authentication, and secure payment processing, offering a seamless and efficient shopping experience tailored specifically to Nike products.

Python,Flask, HTML, CSS, JavaScript
